

AERGC Member Login

Frequently Asked Questions (FAQ)

How do I log in to the AERGC website?

First, you must be a dues-paying member with an active membership to access the AERGC website. Non-members or previous members whose membership has expired are denied access to the members-only areas of the AERGC website. If you are an AERGC member with current dues, then you can login to the AERGC web site after you have created a password. Go to www.aergc.org to enter your Member ID and password in the spaces provided in the upper right corner of the screen for access.

What is my Member ID for login?

For login purposes, your Member ID is the email address you used on your membership application. You must enter this email address exactly (this includes upper or lower case) as the system cannot identify you if there is not an exact match with the email address on file. If you have forgotten the email address you entered on your membership form, contact a membership committee member: membership@aergc.org

How do I create a password?

Once you have received confirmation of your membership, go to: <http://www.aergc.org/member.php> and click on **Password Reset**. Do this even if you are setting your password for the very first time. Enter your email address in the space provided. This will verify your membership status. If you receive an error, re-check to make sure that you entered the correct email address exactly as it was submitted on your membership form. If you have forgotten the email address you entered on your membership form, contact a membership committee member: membership@aergc.org

For security reasons, no human will ever know your password. To insure no one can change your password, the link for setting the password is emailed only to the email address on file. Follow the link and the directions for setting your password. You now will be able to login at: www.aergc.org

What if I forget my password?

For security reasons, no human will ever know your password. Please do not contact AERGC to ask for your password. If you have forgotten your password, go to: <http://www.aergc.org/member.php> and click on **Password Reset**. A new link will be sent to your email where you can reset your password.

What if I still can't log in?

Make sure your membership has not expired. Contact a membership committee member to verify your membership status and your correct email. If you still have problems with logging in, then contact the site administrator.
